ROAD SAFETY  
**WEBINAR**

# INTRODUCTION

The Malaysian Institute of Road Safety Research (MIROS) will be organizing a Sweden-Malaysia Road Safety Webinar scheduled on 10th June 2021. The webinar is the first collaborative initiative between MIROS and VTI which intended to be a platform for exposing and sharing national and international knowledge for the improvement of road safety, associated with the following objectives:

01

To foster future cooperation in areas related to road safety research especially in developing strategies to improve safety of vulnerable road users.

02

To open a discussion about the challenges and opportunities of the vulnerable road users including motorcycles, pedestrians, and other micro-mobility users to be considered in the design of roads and operations in Malaysia and other countries, and innovations oriented to the reduction of crashes and fatalities.

03

To promote the transfer of knowledge of national and international experiences.

04

To develop networking among road safety practitioners for those attending the webinar an opportunity to engage with both national and international road safety experts.
